PUBLIC NOTICE  
MODIFICATION TO WASATCH REGIONAL LANDFILL PERMIT

Wasatch Regional Landfill Inc. and the State of Utah School and Institutional Trust Lands Administration have submitted a modified design for the construction of their Class V landfill located on 2,000 acres on the west side of county road #128 approximately six miles north of interstate 80 in Tooele County. The modification eliminates the disposal of waste in the eastern portion of the site, which has the highest groundwater levels, reduces the size of the individual disposal cells, and incorporates a dewatering trench to ensure adequate separation from groundwater. The Division reviewed the modification and determined it to be complete. The modified landfill application and a draft modified permit were released for public comment. The 30-day public comment period was announced and began on June 30, 2005. No comments were received during the comment period. The modified permit was granted on August 10, 2005. The approved modified permit can be viewed on the web at [www.hazardouswaste.utah.gov/swpermittedfacilities.htm](http://www.hazardouswaste.utah.gov/swpermittedfacilities.htm) or during normal business hours at:
